# Samples of Landing Page of Google Drive Where ICT Resource Materials Prepared by Students are Uploaded

The screenshot shows a web browser window with three tabs: 'Inbox (793) - santicheladwhite@...', 'learning Resource material I&I...', and 'ICT Resource Material (Workbo...'. The address bar shows the URL 'drive.google.com/drive/folders/1mfeedrEbqpFRXGH2FIPCcz1GK7Twj1y1'. The Google Drive interface is visible, with the 'Drive' logo and a search bar. On the left sidebar, there are navigation options: '+ New', 'Home', 'My Drive', 'Computers', 'Shared with me', 'Recent', 'Starred', 'Spam', 'Trash', and 'Storage'. The storage usage is shown as '4.31 GB of 15 GB used' with a 'Get more storage' button. The main content area shows a folder named 'ICT Resource Material (...)' with filters for 'Type', 'People', and 'Modified'. Under the 'Files' section, two files are displayed: 'Copy of ICT WORKB...' (a PowerPoint file with an orange 'P' icon) and 'Report.docx' (a Word document with a blue 'W' icon). The Word document preview shows the title 'EDU 107.2-PEDAGOGY' and 'PRACTICAL'. At the bottom of the browser window, the Windows taskbar is visible with a search bar and several application icons.

**Introduction**

Science is a big blessing to humanity. Science very efficiently plays the role of being a faithful servant of man. In every walk of life, science is there to serve us. We require the benefits of science whether in our home, in office, in a factory, or outside. Science is involved in cooking, eating, breeding, driving, playing, etc. The clock, the watch, the train and plane we use, the sharpened, the telecast provide the aid we apply, everything is the consequence of advancement of science. Life is inseparable without all this, as it has become necessity.

We are all living in an era dominated by science. In simple terms science is a systematic study of physical world and universe on the basis of observation, experimentation and measurement. Science has brought many comforts and convenience in our lives. In earlier times man lived in harmony with nature. Despite many difficulties and hardships posed by nature we lived a less complex, simple, tension free life.

The modern world would not be modern at all without the

#### addon course.docx

Choose one of the above mentioned factors and discuss to a group what they help plus you can suggest to your classmate to overcome it. In a word, what your solution is the first of its action plan.

Answer plan to overcome language barrier

1. Search the entire language of your students and the language spoken at home. (Please only in English) for several activities to gain the information.
2. Choose how you can create an inclusive learning environment and eliminate language differences barriers.
3. Use to help them provide appropriate feedback and work the roles of an classroom, school teacher. Once defined, talk about how the school enhanced a positive culture of learning through the school district. Do you think they should and do these same things that the school did to support their students and their families, as well as some strategies they used to establish communication between the school district teacher? What are other solutions that you think could be done?
4. Reflect on your students' language knowledge. What is already being done to support the classroom's English-speaking students and families in the community? What can you do to help to bring the language skills and to enhance the rich linguistic diversity of the school?
5. Share your thoughts with colleagues, administrators, families, parents, the PTA, and other relevant parties and make a plan to address the issues that you brought up. Implement the plan and reflect upon it. What worked? What needs to be changed?

**PROBLELL ASSESSMENT**

The experience from assignment in this topic had me in getting more out. Choose the techniques you will use to meet yourself in a positive objective way such that it is a help to the both the parties.

- Have any kind of video or support device.
- Tell the other person how you feel in learning in this case, and encourage to learn to what they can do.
- Think about the way and value of your work. You can use it to be consistent in what you

Roll no: 14

The diagram classifies Matter based on two criteria: State of Matter and Nature of Matter. Under State of Matter, it shows Solid, Liquid, and Gas with their respective properties and phase change processes. Under Nature of Matter, it shows Pure Substances (Elements and Compounds) and Mixtures (Homogeneous and Heterogeneous).

```
graph TD
    Matter[MATTER] -->|Classified based on| State[STATE OF MATTER]
    Matter -->|Classified based on| Nature[NATURE OF MATTER]
    
    State --> Solid[Solid]
    State --> Liquid[Liquid]
    State --> Gas[Gas]
    
    Solid --> SolidProp[Definite shape and volume. Particles are not free to move.]
    Liquid --> LiquidProp[No definite shape but definite volume. Particles are free to move.]
    Gas --> GasProp[No definite shape and volume. Particles are very free to move.]
    
    Solid -->|Liquefaction| Liquid
    Liquid -->|Solidification| Solid
    Liquid -->|Condensation| Gas
    Gas -->|Vapourisation| Liquid
    
    Nature --> Pure[Pure Substances]
    Nature --> Mix[Mixtures]
    
    Pure --> Elements[Elements (S, Ag, Au)]
    Pure --> Compounds[Compounds (HCl, CO2)]
    
    Mix --> Hom[Homogeneous (Water, Salt solution)]

## LEARNING STYLES IMPACT STUDENT ACADEMIC PERFORMANCE AND THEIR CLASSROOM APPLICATIONS

August 17, 2022

**ABSTRACT** Learning styles is a pattern of behaviour that human beings use for new learning on student academic performance. Every person is unique in his/her styles of learning. Teachers need to know and adapt different teaching styles as one style does not fit every pupil. For decades, education researchers designed models that differentiate how people learn. Yet the results are often harder to understand. The proponents say that teachers should assess the learning styles of their students and adapt their classroom method to best fit student's learning style to make the teaching easier.

ARTICLE

Importance of knowing the culture in language learning
Language is what makes us human. It is how people communicate. By learning a language, it means you have mastered a complex system of words, structure, and grammar to effectively communicate with others. Language helps us express our feelings and thoughts — this is unique to our species because it is a way to express unique ideas and customs within different cultures and societies. By learning a foreign languages you can understand ideas and thoughts that may be different from your own culture. You can learn customs and how people interact in a given society.

## REFLECTION ON MY B.Ed. INTERNSHIP EXPERIENCES

August 05, 2022

The school internship programme as part of B.Ed. Curriculum gave me the very first opportunity to work as a teacher in a school campus. I did my internship at Our Lady's CGHSS Thoppumpady, for a period of nearly 4 months from November – March, 2022. I was excited to do the internship. Mrs. Ligi K.T., Science teacher and my mentor in the school assigned me to teach Physics for class 8 and Chemistry for class 9. During this period, I took 50 lesson plans covering 4 chapters from Chemistry, namely "Periodic Table", "Acids, bases and salts", Non-metals and "The world of Carbon" and 3 chapters from ...

## Re-Constructing Classrooms as Emotionally Safe Spaces

**"Every child is a different kind of flower and all together make this world a beautiful garden."  
-Anonymous**

No child is a commodity that fits into a homogenous mould. Rather every child is an unmapped territory of immense potential and possibilities. Classrooms are spaces where children learn, grow, play and develop their abilities. Unfortunately, they are also spaces where children are labelled, marginalized, and made invisible. That is when classrooms become spaces of trauma and shame. Sandra L. Bloom states, "Children are only able to learn within a context of safety and security. But for many children today, neither their homes nor their schools are safe places for living, much less learning."

## *Films as an effective tool of education*

August 05, 2022

Films have played a key role in contemporary society, which has almost taken over the entertainment business. Learning institutions have struggled to completely integrate this technology into their learning processes, despite its obvious advantages in quickly spreading knowledge to a large number of individuals. Numerous researches have demonstrated that using visuals helps youngsters learn. Teachers cannot afford to overlook the emotional domains of their pupils since emotions are important factors in how people learn attitudes and behaviors. To educate through emotions does not

The screenshot shows a web browser window with the address bar displaying <https://learnwithliarose.blogspot.com>. The page features a dark background with a grid of squares. At the top center, the text "LEARN WITH LIA" is displayed in large white letters, with "MATH MADE EASY!" underneath. Below this, the main title of the article is "GEOGEBRA : A GREAT TOOL FOR MATHEMATICS LEARNING" in white, bold font. The date "- August 06, 2022" is shown below the title. The article's abstract is presented in a white box with black text. The abstract discusses the use of Geogebra software in mathematics education, highlighting its interactive capabilities for geometry, algebra, statistics, and calculus. It mentions that Geogebra is suitable for learning from primary school to university level and is useful for visualizing abstract geometric objects and the shifting of graphs of functions. Below the abstract, the keywords "Graph of functions, GeoGebra" are listed. The word "Introduction" is visible at the bottom of the article content. On the right side of the browser window, there is a vertical toolbar with various icons, and a Windows watermark that says "Activate Windows Go to Settings to activate Windows".

**LEARN WITH LIA**  
MATH MADE EASY!

## GEOGEBRA : A GREAT TOOL FOR MATHEMATICS LEARNING

- August 06, 2022

**Abstract.** The development of computer technology has opened new opportunities and made it easy for us to use it in various aspects of life, including in the world of education, as a tool and means of supporting education. One computer program that can be used in mathematics learning is the Geogebra software. Geogebra is an interactive geometry, algebra, statistics and calculus application, intended for learning and teaching mathematics and science from primary school to university level. It can be a great media to help its users visualise abstract geometric objects quickly, accurately, and efficiently. This article provides a brief description of Geogebra software as a medium for teaching mathematics especially for visualising the shifting of graphs of functions.

**Keywords :** Graph of functions, GeoGebra

Article Talk

Read Edit View history Tools

From Wikipedia, the free encyclopedia

Coordinates: 25.01828°N 85.37715°E

This article is about the university established in 2010. For the university established in 1951, see Nava Nalanda Mahavihara. For the ancient institution, see Nalanda.

Nalanda University is a public central university located in Nalanda district's Rajgir in the state of Bihar, India. It is designated as an Institute of National Importance (INI) and excellence. The international university supported by 18 member countries<sup>[2]</sup> was established by an Act of the Indian Parliament in 2010. The decision to set up the university was endorsed at the second and fourth East Asia Summits. The President of India serves as Visitor to the university.

## History [edit]

Nalanda University was established to emulate the ancient university of Nalanda, which functioned between the 5th and 13th centuries. The idea to resurrect Nalanda University was endorsed in 2007 at the 2nd East Asia Summit by the sixteen member countries.<sup>[3]</sup> In 2009, during the 4th East Asia summit, ASEAN member states including Australia, China, Korea, Singapore and Japan promised

## Lev Vygotsky

- Lev Vygotsky was born in Russia in 1896.
- He died at the young age of 37 from tuberculosis.
- Due to his early death, most of his theories were left undeveloped.
- His work in the last 10 years of his life has become the foundation of much research and theory in cognitive development.

## Pages from Google Classrooms

The screenshot shows a Google Classroom interface for a class named "B.Ed MALAYALAM 2021-23". The page has a header with the class name and navigation tabs for "Stream", "Classwork", and "People". The main content area features a banner image with the class name and a student count of "105". Below the banner, there is a section for "Upcoming" assignments, showing one assignment titled "ERP" posted on Jan 24. There is also a section for "New material" showing a material titled "LAC". The bottom right corner of the screenshot displays a Windows watermark: "Activate Windows Go to Settings to activate Windows".
