LITTLE FLOWER HIGH SCHOOL, NJARAKKAL

As part of the B.Ed curriculum, K.A Rabia (English) and Jeshma Das V. S (Natural Science) did internship at Little Flower High School, Njarakkal under the support and guidance of Ms Teresa, Faculty of English and Ms. Sheenu, Faculty of Biology respectively. During the three months internship programme, the student teachers were able to explore many aspects of being a teacher in the school. They were part of many activities among which the most important were classroom teaching and mentoring. The teacher trainees were able to transact the subject matter thoroughly with the help of engaging learning materials, ICT and other strategies. Apart from classroom teaching and mentoring, they were part of many other activities in the school.

1. **Examination Duty:** Student teachers were given the examination duty during Christmas examination and during class 10th model examinations. The teacher trainees also had invigilation duty for internal assessment.
2. **Evaluation:** Student teachers were asked to evaluate answer sheets of class 8 English paper and class 8 and 9 Biology paper. They also conducted test papers to evaluate the students.
3. **Discipline:** Student teachers maintained discipline during the whole school assembly and awareness classes. Were also given discipline duty during school Kalolsavam and retreat.
4. **Question paper preparation:** Student teachers were assigned to prepare question paper of class 8 English language and class 8 and 9 Biology.
5. **Annual Day:** Student teachers were part of all the activities. Actively participated while preparing properties for the various dances. Were also in charge of the stage
6. **Remedial Teaching:** After conducting diagnostic test, a few students were selected based on mark to give remedial coaching after the class.
7. **English Coaching:** Student teacher gave coaching to the weak students
8. **School Assembly:** Student teachers helped in maintaining discipline.
9. **English Club:** Organised various activities and games to enhance language like Speech competition, poster making, quiz, reading corner.
10. **Science Club:** Organised various activities, games and competitions like quiz, poster making.
11. **Conducted awareness classes:** On screen addiction, green education, health education and value education for students.
12. **Kalolsavam-** Student teachers were in charge of English skit which won first at Vypin level.

14 Iron and number of other metals react with different components of air and form new product, this process is known as corrosion of metals. One of the easiest and cheapest way to prevent corrosion is to use barrier coating the paint, plastic or powder. Powders including epoxy, nylon, and urethane, here to the metals surface to create a thin film. Plastic and waxes are often sprayed into metal surface. ✓
